Abstract: In this paper COVID 19 heroes are frontline heroes of fighting against corona virus. India has been fighting corona virus with COVID warriors. Most of medical staff, medicine suppliers, doctors, nurses, paramedics, police and lab technicians for setting up COVID testing lab. Medical staff and police are the selfless frontline warriors and to salute these brave warriors. Salute the corona warriors for their unmatched contribution and sacrifice in fighting the COVID 19 epidemic. India salutes its heroic corona warriors. Pleasing the wave with the respect shown towards the doctors, police, paramedics, housekeeping and others who works day and night to set corona free virus. In this pandemic situation the heroism shown in these warriors is definitely respected.

Key Words: Doctors, Nurses, Health caretakers, Medical staff, Paramedics, Housekeeping and Police

SPOTLIGHT OF FRONTLINE WARRIORS OF CORONA VIRUS:

The COVID 19 was outbreak in the world and undertake by public. In India many various businesses pull their shutters but during lockdown economy has taken a strict hit forcing to people to fight against corona virus. Mostly preferable to people to stay at home and stay safe. Still in this situation the medical society including doctors, nurses and medical staff are the true warriors who are fighting with the frontline of diseases and placing their own lives at risk to keep society safe.

Healthcare professionals have truly been selfless warrior because there are giving everything to support their job responsibilities, even at the cost of cutting themselves off from their families. Even if most of doctors have experienced the fulfilment of healing patients and saving their lives and even sacrificing their own live in the line of duty.

In hospital sector the role of a brave medical soldiers fighting against corona virus performed by doctors, nurses and other members because they are standing strong with thermometer, stethoscopes and ventilators as their staff. In this pandemic situation all the doctors and physicians are providing their service with 24x7. Medical teams are sacrifices their own safety because of welfare of humanity is priceless and deserves our lifelong appreciation. The public contain need to give respect, sympathy and salute to the medical

organizations as they truly deserve. People must give a standing ovation for their heroic efforts inspirational doctors across world, who is working to save the COVID 19 patients despite the high risk of infection.

MEDICAL CARE DURING THE

CORONA SCARE:

Corona virus has a lot of people concerned about in search of medical treatments and consultation. In this situation hospitals have been developed 24x7 digital assistant and video consultation. Patients have options for choosing to visit the as well as several safety precautions been adopted including patient distancing, ventilation and disinfection premises, mask and gloves to make sure safety of patients and optimum utilization of sanitizer.

Face masks required for everyone, regardless of symptoms.

Screening all patients and visitors for symptoms upon arrival.

Frequent disinfecting and cleaning.

Physical distancing with floor markers and reconfigured waiting areas.

Staggered appointments to minimize people in a given area.

Sanitizing stations throughout every facility.

DOCTOR'S FIGHT AGAINST COVID 19 FOR SAVES THE PATIENT:

Especially in India outbreak COVID 19 many businesses are shutdown and educational institutes also. But

doctors, health care workers and medical staff members are performing chief role of the fight against COVID 19. Doctors are performing responsibility at their own selfless determination risk in this challenging time. People can appreciate their efforts and cooperate by staying safe indoors.

MEDICAL STAFF MEMBER'S FIGHT AGAINST COVID 19:

Doctors, nurses and care takers are performing their job at risk to the highly transferable disease. Universal pandemic doctors are facing strange challenges. The list of medical staff members includes doctors, nurses, cleaners, pathologist,

paramedical staff members, ambulance drivers and other care takers. Medical staffs are one kind of brave medical soldiers. Brave medical soldiers are fight against disease and stands with thermometers,

stethoscopes and ventilators. Medical and paramedical staff members are working day and night and trying to save the patient. Many doctors have even surrendered their own line of duty.

Every day the selfless worriers are giving their best to save the patient. They are sacrifice personal life and family also. Medical staff welfare of humanity is priceless and deserves lifelong appreciation. This pandemic has been teach to the society to find ways to suitably invest the money medical alliances and give

respect- compensation and infrastructure that they deserve in this crisis. So world has needs to do work towards improvement in medical research and technology. Civilization has to stress the heroic efforts of some brave and inspiring doctors from across the world that lost their lives while saving the lives of COVID 19 patients.

Though contaminated virus has take attention to the lack in the health care systems across the world, doctors, health care workers have been risking their lives to save the all patient. Medical staff's family members are living with risk and huge risk sacrifice. During this crisis mask and sanitizer will not available sometimes. Medical heroes deserve all the appreciation and support. Humanity will always be grateful to them for their work during this unique time. It is good to see that the government of India beside with the governments worldwide has decided to allocate more budgets for healthcare in their respective country. The world is taking more serious about health and healthcare professionals. More work is expected to be done for hospitals and ICUs- Intensive Care Units.

PROTECTIVE MEASURES AS PER MEDICAL AND GOVERNMENT GUIDELINE:

- Again and again sanitize hands.
- More than twenty seconds.
- Wearing a mask.
- Standard Operating Procedure for Social Distancing
- Stay home stay safe.

DOCTOR'S IMPORTANT ROLE IN COVID 19:

- Internists and family practitioners
- Gastroenterologists
- Pulmonologists, ENTs, Ophthalmologists.
- Psychiatrists

PHARMACISTS ROLE IN LABORATORIES:

Pharmacists work in laboratories to develop medicines and vaccines to prevent and treat disease.

- Infectious disease pharmacist
- Hospital pharmacists
- Industry pharmacists and
- Community pharmacists

NUTRITIONIST: Nutritionist has an important role in supporting and maintaining proper immune system.

ROLE OF NURSES AND HEALTH CARETAKERS:

Nurses and health caretakers are playing a key role in this pandemic. Because doctors are save patient but extra cared by nurses and health caretakers. So they are also one part of worriers in pandemic situation.

HOUSEKEEPING DEPARTMENT:

Housekeeping department of all the hospitals performs important role care for the environment sanitized so they are frontline staff as far as fighting the COVID 19 pandemic goes. Avoidance is better than cure.

EXPERIMENTAL RESEARCH ON VACCINES:

Scientists, animals and healthy volunteers are doing research and development, clinical trials, production and distribution of vaccine to the public. Testing of experimental vaccine on animals and healthy volunteers

are also one part of this research work. There are trying to save the patient so it's also part of the warriors.

ROLE OF EPIDEMIOLOGISTS:

Epidemiologists are working hard to get a better understanding of how public health measures like closing schools and following social distancing can help to the public and reduce the strictness of an outbreak.

ROLE OF POLICE IN COVID-19 COMPLICATION:

Law enforcement services play a crucial role in contributing to the control the disease, promoting safer society and fighting criminals who take advantage of the outbreak. During this lockdown and pandemic situation police of crowd control, public order management and avoidance of law by public was utilized at the time of pandemic for enforcement of lockdown. The varieties of tasks are performing the police.

FINAL WORDS:

Even as harmful virus has fetch attention on lack of health care systems across the globe, doctors and health caretakers have been risky their lives to save the patient. In this pandemic situation all of these warriors are living with risk and their family also so certainly is a huge sacrifice. Overall conclusion of paper medical heroes placing themselves on the front position to fight the virus is moving and heartbreaking at the same time. They all deserve salute for their selfless fight. Sacrifice of the doctors and health caretakers across the world will not go to waste. Not only government of India but governments worldwide have decided to distribute more budgets for healthcare in respective countries. Especially in hospitals more work is estimated and ICU- intensive care units to support medical development in India as well as in countries across the world.
